- ☐ Please check if any of the above information has changed since previous year.

II. Mining and Reclamation

1. Was the mine active during the past year? Yes ☒ No ☐
2. If active, how much ore or mineral was mined? 94,385 tons

3. How much **additional acreage** was disturbed during the past year? 15-20 acres
4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

Mining operation has moved into area of new claims. Claims are located in Sections
33 and 34 T3N R8W. 15 to 20 acres were opened to surface mining (upper 3 - 6 feet).

Oolitic sand is screened and washed. Total volume of material moved was 120,000 tons.

5. How much acreage was **reclaimed** during the past year? Approximately 10 - 15 acres.
6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

All areas were reclaimed using standard reclamation procedures.

7. What is the **total disturbed acreage** at years end? 60 - 65 acres.

8. Briefly summarize any mining and/or reclamation plans for the upcoming year.

As mineable oolites are depleted in present mining site, operations will move north.

Projected harvest for 1995 will approximate at 100,000 tons. Standard reclamation
procedures will be adhered to.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. Additional Information

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.
